

## Annual Report (2019-20)

- It is my great privilege to speak something on behalf of the school. I would like to pay my hearty welcome to all of you who are present and extend the grace of the occasion.

- Today I am certainly very sanguine to present you the Annual Report of the school. The session 2019-20 was very progressive and full of events. Apart from academic, we have succeeded in other fields also. We have tried our best to transform our efforts completely in the well being of the students. We made the best policies to the students so that apart from the education they may face the other challenges of this competitive world. This is a very relevant question that the students who are being educated in Chandi Convent School, imbibe the whole efforts that are done by us. We wish that after schooling if they go anywhere, will bring the values whatever they inherited and would prove themselves as an excel and role models of the nation.

- **Academics-** We are extremely privileged to announce it that in current session some of our students have given an appreciable and laurel performance by achieving more than 80% marks. This was possible only because of our dedicated, inferred and competent staff who showed the students the true path and made the remedial scale to perform them well.

- We made the special policies to the students in respect of examination where the papers were designed by outside teachers so that students may write themselves without any help and face the challenge of the current time in study. We have arranged 10 projectors to boost up the value of the digital smart class education so that students may enhance their allegiance and excess knowledge in a very short time.

- We have commenced various types of skill-based programmes from lower to upper levels. Time to time we organise the debate and speech competitions to enhance their communicative skills.

- **Co-Curricular Activities-** In this session school has organised much more co-curricular activities like calligraphy, essay writing, drama, skit, singing, dancing, speech, debate, symposium, mono acting etc so that students may explore their talent apart from academic. Through this they will be excellent in speaking, body language and depiction on the stage.

- **Social Responsibility-** School has made a social club just to help the poor, downtrodden and orphan children. In this concern parents and guardians are requested through students to contribute clothes, shoes and accessories . These were further distributed to the poor, downtrodden and orphan children by our senior class students.

- **Investiture Ceremony-** In the current session the school parliament was formed and an investiture ceremony was also organised through the election in July 2019. Mr Mannat Deep Singh Chandi and Ms Shubhpreet Kaur were elected the head boy and head girl of the school. Captains, Vice- Captains and other prefects were also elected. At the end of the ceremony honourable Director Sir, briefed the responsibilities of all the office bearers. They took oath in the name of God to perform their duties truly.

- **Seminars & workshop-** The school always believes in training programmes that's why teachers must take proper experience and knowledge. Many of our teachers have attended educational programmes and workshops that have been organised by different publishers. In January 2020 the school has organized a classroom management workshop just to learn how to manage the class under the guidance of Mr Shekher Awasthi, Principal Roots International School Noorpur Bijnor. Through these workshops they encountered many deficiencies which were coming in their teaching way.

- **Sports and Games-** The school always does its best efforts to search out the best talent in the field of games and sports. Therefore incessant activities are decided to push forward the students to choose the career in their desired way. Through these activities, students learn how to work togetherly, how to behave with each other, how to live in unity and how to expose themselves. In November 2019 the school has organised Annual Sports week in which different types of games were performed. Some of our students made a benchmark in sports and got 4 to 5 medals with certificates. I am much more pleased to say that the "impossible" word is not in our students' dictionary.

- All the progress and up-gradation we have done with our students is possible due to the excess dedicated and efficacious staff. Our management is also very co-operative and determined to eliminate all the hurdles that come in the progress of the study. We all are doing our best under the inspirational guidance of our Management. Our sincere staff always encourage the students to explore and introspect themselves to confront the hindrance and find the solutions to develop the skills to make their career better.

- At last, I would like to extend my sincere thanks to our respected parents and well-wishers who always supported us in our crisis and moved with us hand in hand. Today we can say that these are your wards but they have been moulded by our influential staff, definitely will be the destiny of our country.

Thanks
