DIRECTOR'S MESSAGE

Truly education is the main base of all types of progress and development. As I am observing over a decade and having the experience that progress is possible only in that condition when men and women are equally well educated. The purpose of education is not restricted up to the bookish knowledge but apart from it education inculcates the basic things of life as benevolence, wisdom, compassion, courage, humanity, integrity and reliability in a student. Being the director of the school we will also force on these things along with education that's why a smart student may emerge in this amazing world. With it I will focus on the key point of education as the development of faculty that will be the excel of the progress of the school.

However the teachers are already well educated and expert in their respective field & they will impart such type of education which make our students self reliant and self confident so that they may face challenges of present life situation easily. Chandi Convent School will always inspire his teachers as well as students to be excel of the society in the constantly changing environment. I am fully confident that the Chandi Convent School will be the best place for your Child's progress. Your active participation is also welcome.

Thanks

MANAGER'S MESSAGE

Dear parents & well wishers.

First of all I would like to greet you with warm wishes and showers of blessings from the Almighty God. Once I enquired from several parents why they desired to seek admission here. Then and there quick response was that it is very difficult to face the challenges of study in this competitive environment. As concern as me in present scenario it is very important to make the balance of life between the academic rigour, co-curricular activities and extra-curricular activities for overall development of the students. In present education system we have to motivate them to attain and pursue the value based education. It is said that the success is sold in the open market. Everybody can buy it if he/she can. You can see the history of great men. They were not great since birth, on the contrary they made themselves great by learning and working hard. Definitely they would have adopted the process of value based education. In this process I would like to assure you that Chandi Convent school would also provide the value based education that's why students may survive anywhere in the world.

Thanks
